TO THE

MOST POPULAR TEACHER
IN BRAINERD.

VOTE FOR YOUR CHOICE.

THE DISPATCH has ever been alive to the interests of education and has always endeavored to extend the scope of the acquirement of knowledge whenever an opportunity presents itself. With this end in view this paper has purchased a box for the performance of Shakespeare's "The Taming of the Shrew" which the well known star, Charles B. Hanford will present in this city at the Brainerd Opera House, on Monday Feb. 24. THE DISPATCH will present this box to the lady school teacher who will receive the largest number of votes.

This plan of voting is simple. All that is required for the casting of a vote is to fill and cut out the coupon printed below and send it to this office. Inasmuch as the box holds six persons, the lady for whom the largest number of ballots is cast can invite five of her friends to be her guests on the evening of February 24.

"The Taming of the Shrew" is one of the most amusing as well as instructive of Shakespeare's comedies. It has not been revived for several years and the production given by Mr. Hanford and his company is said to be adequate in every respect.

THE DISPATCH will announce the progress of the balloting each day by publishing the list of contestants with the number of their votes.

VOTING COUPON.

This is a vote for.....

Candidate for private box at the Brainerd Opera House for the performance of MR. CHARLES HANFORD in "The Taming of the Shrew," Feb. 24.

P. S. Write the name of your favorite on the line above and send or bring this coupon to the Dispatch office before 12 m. Feb. 22, 1902.

HOSTILE TO THE IRISH

NOTABLE SPEECH DELIVERED
BY LORD ROSEBERY AT
LIVERPOOL.

NO PARLIAMENT AT DUBLIN

Is Opposed to Handing Over the Destinies of Ireland to Those Who Have Expressed the Wish That Great Britain Might Be Overthrown in Battle—The Question Is Too Large for Any One Party to Handle.

Liverpool, Feb. 15.—Lord Rosebery received a tremendous ovation at the great Liberal demonstration here during the evening. His lengthy speech, the principal one of the evening, was attentively received and highly applauded. He failed to throw any fresh light on the war situation, but he strongly emphasized his hostility to the Irish party and his desire to utterly alienate it from the Liberal camp.

During his remarks Lord Rosebery said that the greatest change in heart and head undergone during his five years absence from public life was in regard to the Irish problem. Mr. Gladstone's bills were dead and buried, though that statement cast no reflection on the great statesman who originated them. The Irish party had now indignantly repudiated any connection with the Liberal party and he believed they had acted wisely. It was both to their interests and to those of the Liberal party. The Irish leaders had played their full hand. They had demanded an independent parliament in Dublin and thereupon he had cried "Halt." This remark was greeted with applause. Continuing, Lord Rosebery said:

"I am not prepared at any time or under any circumstances to grant them an independent parliament. No sane person would ever consent to handing over the destinies of Ireland, situated in the very heart of the empire, to a parliament controlled by those who have expressed the earnest wish that we might be overthrown in battle. The Irish question is too large for any one party."

It will need the energy and patriotism of both great parties to deal therewith. These are my personal sentiments, but I wish to make them perfectly clear on returning to public life.

Regarding the war, Lord Rosebery said he had been ignorantly ridiculed for the suggestion of "casual peace negotiations in some wayside inn," but he thought the innocent mission of Dr. Kuyper, the Dutch premier, bore a fairly close analogy to such a course. The speaker said he thought the reply of Lord Lansdowne, the under secretary for foreign affairs, to Dr. Kuyper, was fitting and dignified, but he thought the government had acted wrongly in declining to reckon with the Boer delegates in Europe and allow them to send a deputation to South Africa.

"The trouble with the government," said Lord Rosebery, "is that they are always thinking of the present. I try to think of the future when Boer and Briton will have to live together in South Africa."

The speaker appealed for an immediate and searching inquiry into the remount scandal and commented generally upon the government's seeming want of a definite policy in Malta and Wei-Hai-Wei. In conclusion he begged that his hearers would not be too ready to allow their hands to be tied by the Anglo-Japanese alliance.

IN BOBLETER'S AID.

Minnesota Senate Adopts Bill Releasing Him From Liability.

St. Paul, Feb. 15.—The day's work in the senate was accomplished in short order, the only proceeding out of the ordinary routine being the passage of a resolution under a suspension of the rules releasing Former State Treasurer Joseph Bobleter from his liability to the state and returning to him the \$1,500 he had already paid.

Five new bills were introduced and as many house bills favorably recommended by the reception committee.

The house in a session of about 20 minutes received another substitute set of proposed constitutional amendments, 10 petitions protesting against the enactment of the tax code and one favoring the code.

CLAIMS SELF-DEFENSE.

J. P. Parker Killed by Hiram Hall Near Millston, Wis.

Millwaukee, Feb. 15.—A special to The Sentinel from Sparta, Wis., says: J. P. Parker, a well known citizen of Millston, was shot and killed about two miles from that place by Hiram Hall. The shooting occurred during the night and the body was found early in the morning. Hiram Hall has been arrested charged with the crime. He admits shooting Parker, but claims it was done in self-defense. The cause of the crime is said to have been jealousy. Hall claims that Parker had been intimate with his wife. Both men are married. Parker came to Millston from Cornell, Ill., where his parents live.

BIG STEAMSHIP COMBINE.

Five Big Transatlantic Companies Embraced in It.

Boston, Feb. 15.—Announcement is made here that a combination of transatlantic steamship companies, embracing the Dominion and Leyland lines of Boston and the White Star, the American and the Atlantic Transport lines of New York, has been effected. The combination controls 120 steamers of all sizes, and, it is said, has behind it a large capital.

It is described as being more of a pooling of interests than an amalgamation and is said to mean that there will be a distribution of tonnage in the different ports, according to the demand. Boston interests believe that this will be of great advantage to this city.

The movements of the boats of all the lines will be directed from one headquarters in London, at which Henry Winding, a director of the Leyland, the Atlantic Transport and the American lines, will preside.

NO POLITICS IN IT.

Prince Henry's Visit Is for the Whole American People.

Berlin, Feb. 15.—The Berliner Neueste Nachrichten devotes a leader to the departure of Prince Henry and wishes that his enjoyment of American hospitality be not interfered with.

"The mission upon which the prince goes as the representative of Emperor William," says the paper, "is in no sense political, in spite of the political character imputed to it in unfriendly quarters in order to create divisions among the American people and spoil the visit. The visit of Prince Henry is intended for the whole American people and not merely for the German element in the United States. No sensible German statesman wishes to see German-Americans other than good American citizens. The practical sense of the Americans has frustrated all attempts, through political maneuvers, to destroy the harmony of the prince's trip."

CONTINUES TO IMPROVE.

Theodore Roosevelt, Jr., Is Said to Be Gaining Very Rapidly.

Groton, Mass., Feb. 15.—It was an uneventful day at the Groton school. Theodore Roosevelt, Jr., has improved very rapidly and for the first time since his illness he partook of solid food, meat being included in the diet. The boy rested comfortably all day. Dr. Shattuck of Boston has discontinued his visits, leaving Dr. Warren of Groton in charge. Dr. Jewett of Boston spends his time at the infirmary, carrying out the orders of Dr. Warren. At each taking of the chart, the respiration, pulse and temperature of the patient were normal and from all appearances the convalescence was uninterrupted. It is hoped that the boy will be able to sit up by Monday. His lungs are rapidly clearing, with the possibility of resolution being completed in a very few days.

BRITISH NAVAL ESTIMATES.

Over Sixty New Vessels to Be Undertaken This Year.

London, Feb. 15.—The admiralty's naval estimates for 1902-1903 show a total of £31,255,000, as compared with £20,875,000 last year. There will be undertaken April 1 of this year 13 new battleships, 22 armored cruisers, 2 second class cruisers, 2 third class cruisers, 10 torpedo boat destroyers, 5 torpedo boats and 3 minor craft.

Lord Selborne, first lord of the admiralty, announces that a new type of torpedo boat destroyer is contemplated and that important developments are planned in the executive and work departments. A committee will be appointed to consider the establishment of a volunteer naval reserve.

CHILD POISONER DEAD.

Was Given Life Sentence for Killing His Own Children.

Jackson, Mich., Feb. 15.—Elmer Quimby, aged 38, who was sentenced for life to the state penitentiary from Ithaca, Gratiot county, because he had caused the death of his children by poison last May, died in the prison hospital during the afternoon. He had been ill with typhoid fever. His wife is now serving a sentence in the house of correction in Detroit for participating in the crime. Quimby died without confessing, reiterating his former statement that his wife killed the children.

RELATING TO TREASON.

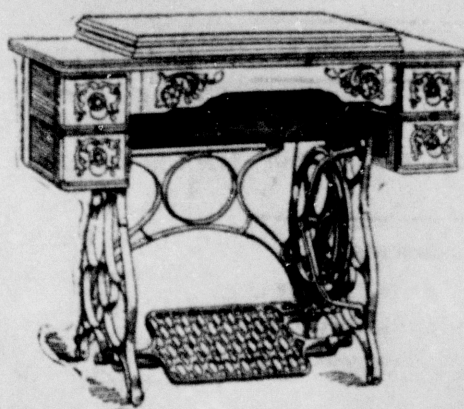

Amendment to Philippine Tariff Bill Offered by Senator Hoar.

Washington, Feb. 15.—Senator Hoar has offered the following amendment to the Philippine tariff bill now pending in the senate, the provision to be inserted at the end of the bill:

"No person in the Philippine islands shall, under the authority of the United States, be convicted of treason by any tribunal, civil or military, unless on the testimony of two witnesses to the same overt act, or on confession in open court."

Clearing the Streets of Paterson.

New York, Feb. 15.—The work of clearing the streets of Paterson, N. J., goes on rapidly and it is thought that by the end of the next week it will be so far completed that some kind of order will have been restored. Most of the business firms burned out are open for business and the affairs of the city are beginning to run smoothly. The relief fund now amounts to \$22,500 from all sources.

Some Political Comments.

The Anoka Union thinks Senator Buckman will have a walk away from the Sixth district congressional nomination.

"While I am not friendly to the candidacy of Senator Buckman for congress in this district," said a prominent St. Cloud republican to a Journal-press reporter yesterday, "all this talk about the district being close and the absolute necessity to nominate the best man makes me tired. In the natural order of things the best man ought to be nominated by both parties for the high office of congressman for the credit of the district, but the fear which is evidently lurking in the hearts of the timid republicans of the district that unless the greatest vote-getter shall lead the fight in the district the party will invite defeat at the polls, is by no means well-founded. While at the last presidential election the district was uncomfortably close, it is a great deal more strongly republican than it was two years ago. There has been a great immigration into the district in the past two years, and as the new comers are from the solid republican states of Iowa and Wisconsin, with many from southern Minnesota, it is a safe proposition that fully three-fourths of the new votes are republican. I estimate the number of new votes in the district at 2,000, and from 1,500 to 1,800 of these are safely republican. When the politicians begin to give this fear as an excuse why Buckman should not be nominated it is time for them to think of something else. Most anybody running as a republican can beat anybody whom the opposition can put in the field."

J. M. Elder, the Brainerd real estate man in St. Cloud yesterday said that unless Stearnes county produced a candidate for congress the republican nomination would surely go to Buckman, of Morrison, by default, says the Journal-Press. Mr. Elder declared that Crow Wing county, should Judge Searle become a candidate, would give him an enthusiastic support.

NOT A HOPEFUL OUTLOOK.

Correspondent Writes the Pioneer Press From Bemidji That the M. & I.

Will Go No Further.

It is given out in railway circles that the further extension of the Minnesota & International railroad towards the Canadian boundary line will not be taken up for a couple of years, owing to the uncertainty as to who is to furnish the funds for new lines for the Northern Pacific, says the Bemidji correspondent to the Pioneer Press. When the engineers of the road were laid off a few weeks ago, the rumor gained credence, and now an official of the road has confirmed the rumor.

The line is now completed to Blackduck, thirty miles north of Bemidji, and daily train service has been installed. It has been the intention of the M. & I. people to continue cutting the right of way beyond Blackduck this winter and bringing in supplies for the summer work. But since the agitation over the "merger" these plans have all been sidetracked.

This fact will be a terrible disappointment to thousands of settlers who in the past two years have taken up homesteads in northern Itasca county, along the survey of this line. Perhaps in the United States there has been no portion of country more in need of a railroad to accommodate the people.

In winter there are wagon roads that may be travelled with difficulty, but in the summer surrounding swamps and lack of county roads have made this country practically shut off from the world except by using water routes. In summer the residents of the Big Fork country have been obliged to get their supplies either by boats from Canada at the mouth of the Big Fork or up the stream 200 miles at Deer River. And this stream is so rapid that the trip is one of the great hardships.

Not only will the cessation of construction of the M. & I. be a hardship to the settlers, but a discouragement to townspeople boomers who have invested thousands of dollars along the survey. Two years ago a St. Paul syndicate, headed by Tams Bixby, purchased land at a big price and platted a town on the Big Fork beside one of the best waterfalls in this country. Recently C. J. Svedback platted a town on the opposite side of the river. Last summer W. F. Street platted a town beside the waterpower of the Little Fork, all three towns being on the direct survey of the M. & I. Real estate in town lots can not be expected to boom until stimulated by railroad work in its vicinity.

But those interested in the interior are not discouraged. They are hopeful of railroad connection by way of Deer River. The Simms logging road has been extended from the Great Northern at this station, and it is reported that it will be continued directly to the two towns on the Big Forks.

REVENUE REDUCTION BILL.

Special Rule for Its Consideration Introduced in the House.

Washington, Feb. 15.—Representative Payne, chairman of the ways and means committee, has introduced the special rule under which the war revenue reduction bill will be considered. It provides that immediately after the adoption of the rule the consideration of the bill shall proceed; that on Feb. 18 at 3 p. m. general debate shall close; the bill shall be reported with such amendments as have been recommended by the committee, and immediately thereafter the house shall vote without debate or intervening motion. The amendments referred to in this rule are those of the committee and relate to matters of phraseology. All other amendments, such as that embodying Representative Babcock's proposed amendment of the steel schedule, or affecting Cuban duties, are excluded.

EXTRAVAGANCE CHARGED.

Employment of Clerks and Messengers by Senate to Be Investigated.

Washington, Feb. 15.—A little flurry was created in the senate over the employment, since the beginning of the session, of a score or more of extra clerks and messengers to committee. The charges of extravagance made induced the reference of the whole subject of clerical employment to a committee for investigation and report.

The bill creating a permanent census office was under consideration for a time, but was not disposed of finally. After the passage of a large number of private pension bills the senate adjourned the life and character of the late Representative Brosius of Pennsylvania.

JAMES NEILL COMES DOWN A NOTCH

The "Reception" he Has Received From Along the Line Rather Impresses Him.

HE NOW SAYS HE IS SORRY.

Not an Elk or a Member of his Family! Present at the Grand Forks Performance.

Brainerd Elks were not the only members of that great order that showed their "appreciation" of the acts of James Neill in connection with his partial initiation at Spokane some time ago.

At Grand Forks the Elks did the same thing that the Elks did here, as the following sent to the Minneapolis Journal would indicate:

"When James Neill appeared here last evening in Barbara Freitchie, much interest was taken in the house he would draw, and the extent the Elks boycott would have on the attraction. While there was no open demonstration against him, it is a fact that as far as known not an Elk was present, as the members of that order feel that Neill has not acted as he should have done toward the lodge in connection with his partial initiation at Spokane a short time ago.

"On the night he was to have been initiated, there was nothing like the trouble represented in many papers. He admits he thought he was getting the worst of the deal, and this he says made him resentful for the reason that he had been solemnly assured that he would be given nothing but the straight initiatory work with all the trimmings left off. Had he been in his home town, where he knew everyone, he would have thought nothing of the treatment he received, but being among strangers and having agreed to the initiation under the promise that he would not be handled roughly, he felt that the members of the lodge were not doing by him as they should.

"However, Mr. Neill admitted that he had acted hastily, and that at the time he was very angry else he should not have said what he did, or acted as he did. He says that after he had retired to the ante room and had cooled down he realized his position, and told those near him that he was willing to go on with the work and take the obligations necessary, under the assurance that he would be dealt kindly with. By this time however, the members of the lodge were in a debate on the question, and before any settlement had been reached his train was about to leave and he was compelled to go.

"Mr. Neill deeply regrets the occurrence, and says he sincerely wishes the exalted ruler of the lodge had never permitted him to leave the room. He acted hastily and admits it, and also admits that he was angry when he wrote his first letter to Mr. Rockwell of the Spokane lodge, which was afterwards published in the Spokesman Review of that place."

Representative Oscar Daggett, of Benton county, is confined to his room at the Merchant's hotel in St. Paul with inflammatory rheumatism.

ROOSEVELT AND PARRY.

Indianapolis Man Being Mentioned for Vice President.

Indianapolis, Feb. 15.—The Sentinel says: D. M. Parry, vice president of the National Manufacturers' association, is being urged for the vice presidential nomination on the ticket with President Roosevelt. Senator Beveridge has announced to Mr. Parry and his close friends that he wants to stay in the senate and will not allow his name to be used, and he is urging Mr. Parry's nomination. The two called on President Roosevelt two weeks ago in Washington and during the conversation in the president's private office the president jovially slapped Mr. Parry on the back and asked him how he would like to be on the ticket with him in 1904. Mr. Parry, when asked about the conversation between himself and the president, said he did not know how it could have become known, as he had not repeated it. He added that some one at Washington must have told it. Mr. Parry's friends here believe he would accept the nomination.

MADE A RAG BAG OF IT.

Beston Man Fined for "Contemptuous Use of the United States Flag"

Boston, Feb. 15.—For using an old United States flag as a bag in his business of collecting rags, Meyer Ratzman was fined \$20 in the municipal court, the charge being "contemptuous use of the United States flag. The flag was stained and weather beaten, but its original design was not effaced. A policeman made the arrest on his own responsibility and while taking Ratzman to the station was intercepted by two marines, who pleaded for a chance to chastise the prisoner.

"While I am not friendly to the candidacy of Senator Buckman for congress in this district," said a prominent St. Cloud republican to a Journal-press reporter yesterday, "all this talk about the district being close and the absolute necessity to nominate the best man makes me tired. In the natural order of things the best man ought to be nominated by both parties for the high office of congressman for the credit of the district, but the fear which is evidently lurking in the hearts of the timid republicans of the district that unless the greatest vote-getter shall lead the fight in the district the party will invite defeat at the polls, is by no means well-founded. While at the last presidential election the district was uncomfortably close, it is a great deal more strongly republican than it was two years ago. There has been a great immigration into the district in the past two years, and as the new comers are from the solid republican states of Iowa and Wisconsin, with many from southern Minnesota, it is a safe proposition that fully three-fourths of the new votes are republican. I estimate the number of new votes in the district at 2,000, and from 1,500 to 1,800 of these are safely republican. When the politicians begin to give this fear as an excuse why Buckman should not be nominated it is time for them to think of something else. Most anybody running as a republican can beat anybody whom the opposition can put in the field."

J. M. Elder, the Brainerd real estate man in St. Cloud yesterday said that unless Stearnes county produced a candidate for congress the republican nomination would surely go to Buckman, of Morrison, by default, says the Journal-Press. Mr. Elder declared that Crow Wing county, should Judge Searle become a candidate, would give him an enthusiastic support.

NOT A HOPEFUL OUTLOOK.

Correspondent Writes the Pioneer Press From Bemidji That the M. & I.

Will Go No Further.

It is given out in railway circles that the further extension of the Minnesota & International railroad towards the Canadian boundary line will not be taken up for a couple of years, owing to the uncertainty as to who is to furnish the funds for new lines for the Northern Pacific, says the Bemidji correspondent to the Pioneer Press. When the engineers of the road were laid off a few weeks ago, the rumor gained credence, and now an official of the road has confirmed the rumor.

The line is now completed to Blackduck, thirty miles north of Bemidji, and daily train service has been installed. It has been the intention of the M. & I. people to continue cutting the right of way beyond Blackduck this winter and bringing in supplies for the summer work. But since the agitation over the "merger" these plans have all been sidetracked.

This fact will be a terrible disappointment to thousands of settlers who in the past two years have taken up homesteads in northern Itasca county, along the survey of this line. Perhaps in the United States there has been no portion of country more in need of a railroad to accommodate the people.

In winter there are wagon roads that may be travelled with difficulty, but in the summer surrounding swamps and lack of county roads have made this country practically shut off from the world except by using water routes. In summer the residents of the Big Fork country have been obliged to get their supplies either by boats from Canada at the mouth of the Big Fork or up the stream 200 miles at Deer River. And this stream is so rapid that the trip is one of the great hardships.

Not only will the cessation of construction of the M. & I. be a hardship to the settlers, but a discouragement to townsites boomers who have invested thousands of dollars along the survey. Two years ago a St. Paul syndicate, headed by Tams Bixby, purchased land at a big price and platted a town on the Big Fork beside one of the best waterfalls in this country. Recently C. J. Sweed-back platted a town on the opposite side of the river. Last summer W. F. Street platted a town beside the waterpower of the Little Fork, all three towns being on the direct survey of the M. & I. Real estate in town lots can not be expected to boom until stimulated by railroad work in its vicinity.

But those interested in the interior are not discouraged. They are hopeful of railroad connection by way of Deer River. The Simms logging road has been extended from the Great Northern at this station, and it is reported that it will be continued directly to the two towns on the Big Forks.

REVENUE REDUCTION BILL.

Special Rule for Its Consideration Introduced in the House.

Washington, Feb. 15.—Representative Payne, chairman of the ways and means committee, has introduced the special rule under which the war revenue reduction bill will be considered. It provides that immediately after the adoption of the rule the consideration of the bill shall proceed; that on Feb. 18 at 3 p. m. general debate shall close; the bill shall be reported with such amendments as have been recommended by the committee, and immediately thereafter the house shall vote without debate or intervening motion. The amendments referred to in this rule are those of the committee and relate to matters of phraseology. All other amendments, such as that embodying Representative Babcock's proposed amendment of the steel schedule, or affecting Cuban duties, are excluded.

EXTRAVAGANCE CHARGED.

Employment of Clerks and Messengers by Senate to Be Investigated.

Washington, Feb. 15.—A little flurry was created in the senate over the employment, since the beginning of the session, of a score or more of extra clerks and messengers to committees. The charges of extravagance made induced the reference of the whole subject of clerical employment to a committee for investigation and report.

The bill creating a permanent census office was under consideration for a time, but was not disposed of finally. After the passage of a large number of private pension bills the senate eulogized the life and character of the late Representative Brosius of Pennsylvania.

JAMES NEILL COMES DOWN A NOTCH

The "Reception" he Has Received From Along the Line Rather Impresses Him.

HE NOW SAYS HE IS SORRY.

Not an Elk or a Member of his Family! Present at the Grand Forks Performance.

Brainerd Elks were not the only members of that great order that showed their "appreciation" of the acts of James Neill in connection with his partial initiation at Spokane some time ago.

At Grand Forks the Elks did the same thing that the Elks did here, as the following sent to the Minneapolis Journal would indicate:

"When James Neill appeared here last evening in Barbara Freitchie, much interest was taken in the house he would draw, and the extent the Elks boycott would have on the attraction. While there was no open demonstration against him, it is a fact that as far as known not an Elk was present, as the members of that order feel that Neill has not acted as he should have done toward the lodge in connection with his partial initiation at Spokane a short time ago.

"On the night he was to have been initiated, there was nothing like the trouble represented in many papers. He admits he thought he was getting the worst of the deal, and this he says made him resentful for the reason that he had been solemnly assured that he would be given nothing but the straight initiatory work with all the trimmings left off. Had he been in his home town, where he knew everyone, he would have thought nothing of the treatment he received, but being among strangers and having agreed to the initiation under the promise that he would not be handled roughly, he felt that the members of the lodge were not doing by him as they should.

"However, Mr. Neill admitted that he had acted hastily, and that at the time he was very angry else he should not have said what he did, or acted as he did. He says that after he had retired to the ante room and had cooled down he realized his position, and told those near him that he was willing to go on with the work and take the obligations necessary, under the assurance that he would be dealt kindly with. By this time however, the members of the lodge were in a debate on the question, and before any settlement had been reached his train was about to leave and he was compelled to go.

"Mr. Neill deeply regrets the occurrence, and says he sincerely wishes the exalted ruler of the lodge had never permitted him to leave the room. He acted hastily and admits it, and also admits that he was angry when he wrote his first letter to Mr. Rockwell of the Spokane lodge, which was afterwards published in the Spokesman Review of that place."

Representative Oscar Daggett, of Benton county, is confined to his room at the Merchant's hotel in St. Paul with inflammatory rheumatism.

ROOSEVELT AND PARRY.

Indianapolis Man Being Mentioned for Vice President.

Indianapolis, Feb. 15.—The Sentinel says: D. M. Parry, vice president of the National Manufacturers' association, is being urged for the vice presidential nomination on the ticket with President Roosevelt. Senator Beveridge has announced to Mr. Parry and his close friends that he wants to stay in the senate and will not allow his name to be used, and he is urging Mr. Parry's nomination. The two called on President Roosevelt two weeks ago in Washington and during the conversation the president jovially slapped Mr. Parry on the back and asked him how he would like to be on the ticket with him in 1904. Mr. Parry, when asked about the conversation between himself and the president, said he did not know how it could have become known, as he had not repeated it. He added that some one at Washington must have told it. Mr. Parry's friends here believe he would accept the nomination.

MADE A RAG BAG OF IT.

Boston Man Fined for "Contemptuous Use of the United States Flag."

Boston, Feb. 15.—For using an old United States flag as a bag in his business of collecting rags, Meyer Ratman was fined \$20 in the municipal court, the charge being "contemptuous use of the United States flag." The flag was stained and weather beaten, but its original design was not effaced. A policeman made the arrest on his own responsibility and while taking Ratman to the station was intercepted by two marines, who pleaded for a chance to chastise the prisoner.

RUMORED CHANGE IN RAILROAD CIRCLES

E. L. Brown Has Resigned as Superintendent of Superior Division Effective March 1

WELL LIKED BY EMPLOYEES.

There is a Rumor that G. W. Vanderslice Will Succeed Supt. Brown.

Supt. E. L. Brown, at present superintendent of the Superior division of the Northern Pacific, has tendered his resignation to take effect March 1.

This will come as a surprise to the many friends of Mr. Brown in this city and the men working under him on the division. He has been superintendent of this division since the first day of July 1900 when the Northern Pacific acquired the St. Paul & Duluth line. Up to that time he was superintendent of that line.

It is said that Mr. Brown has been offered and has accepted the position of general manager of the Montana Central. The Montana Central is a subsidiary of the Great Northern system and extends from Havre, Mont., to Butte.

Along with the above there is a rumor that Mr. Brown will be succeeded on the Superior division by G. W. Vanderslice, who is now superintendent of the Manitoba division, with headquarters at Grand Forks. Since the Northern Pacific sold all its Canadian lines, Mr. Vanderslice's jurisdiction was greatly diminished, so that now he has but a small division extending from Winnipeg Jet. to Pembina, not at all commensurate with his ability.

Mr. Vanderslice was chief dispatcher in this city at one time and later was assistant superintendent of the St. Paul division with headquarters at Staples. He is very well known here and if the above rumor is true his many friends here will be glad to hear that he will be transferred to the Superior division.

TROUBLE LIKELY TO FOLLOW.

Mille Lacs Indians Who Went To Washington Are Said to be There Without Permission.

It will be remembered that a delegation of Mille Lacs lake Indians left their homes a short time ago to appear before the department in the interests of their tribes on in the vicinity of Mille Lacs. The Indians at Mille Lacs lake are not supposed to be there at all by right, but at White Earth, but the government has never seen fit as yet to move them. Now the country is being more thickly settled and the whites are finding many serious objections to having these government charges in their midst. The Indians still maintain their right to stay on the land that was formerly the Mille Lacs lake reservation.

The Indian bureau officials did not learn that the delegation of Indians was in Washington until yesterday, and it is possible the members will be arrested and sent back to the reservation.

Some time ago the Indians requested permission to send a delegation to Washington, but it was refused. They came, however, of their own motion and without authority. The department officials blame Gus Beaulieu for having induced the Indians to go there, and are likely to haul him over the coals for it.

The local club met last night for practice. It is not known who will compose the local team, but a rather strong aggregation will be put in the field.

MUSIC AND DRAMA.

"ALVIN JOSLIN."

The old time favorite, "Alvin Joslin," will be the attraction at the Brainerd Opera House for Saturday, Feb. 22. The play deals with the adventures of an old New England farmer, "Alvin Joslin," during his first visit to New York. He falls into the clutches of bunco-steerers, confidence men and others of his ilk, who are ever on the lookout for the unwary stranger. The old fellow as a result gets into all kinds of scrapes and his efforts to extricate himself furnish an abundance of fun. The plot is an interesting one and there are several strong situations and stirring climaxes, making the play one of intense interest. A quantity of new and special scenery, representing well known localities in New York are carried by the company. The Grand Central Depot, Pier 29 East River, showing the famous Brooklyn Bridge by moonlight, a thieves' den in Baxter street, and a typical Bowery Concert Hall are among the more prominent.

"TAMING OF THE SHREW."

One of the most interesting events of the theatrical year will be the appearance at the Brainerd Opera House on Feb. 24, of Mr. Charles B. Hanford in a grand revival of Shakespeare's "The Taming of the Shrew." The James B. Delcher Amusement Company who are directing the tour promise a complete production with an exceptional cast including Miss Helen Grantly a famous English beauty, Marie Drofna, Emma Hayner, William J. Shea, Irving Knight, P. A. Nannary, Harold Fiske, Paul Anderson, R. O. Meech, L. W. Browning and John C. Davis.

RUMORED CHANGE IN RAILROAD CIRCLES

E. L. Brown Has Resigned as Superintendent of Superior Division Effective March 1

WELL LIKED BY EMPLOYEES.

There is a rumor that G. W. Vanderslice Will Succeed Supt. Brown.

Supt. E. L. Brown, at present superintendent of the Superior division of the Northern Pacific, has tendered his resignation to take effect March 1.

This will come as a surprise to the many friends of Mr. Brown in this city and the men working under him on the division. He has been superintendent of this division since the first day of July 1900 when the Northern Pacific acquired the St. Paul & Duluth line. Up to that time he was superintendent of that line.

It is said that Mr. Brown has been offered and has accepted the position of general manager of the Montana Central. The Montana Central is a subsidiary of the Great Northern system and extends from Havre, Mont., to Butte.

Along with the above there is a rumor that Mr. Brown will be succeeded on the Superior division by G. W. Vanderslice, who is now superintendent of the Manitoba division, with headquarters at Grand Forks. Since the Northern Pacific sold all its Canadian lines, Mr. Vanderslice's jurisdiction was greatly diminished, so that now he has but a small division extending from Winnipeg Jet. to Pembina, not at all commensurate with his ability.

Mr. Vanderslice was chief dispatcher in this city at one time and later was assistant superintendent of the St. Paul division with headquarters at Staples. He is very well known here and if the above rumor is true his many friends here will be glad to hear that he will be transferred to the Superior division.

TROUBLE LIKELY TO FOLLOW.

Mille Lacs Indians Who Went To Washington Are Said to be There Without Permission.

It will be remembered that a delegation of Mille Lacs lake Indians left their homes a short time ago to appear before the department in the interests of their tribes on in the vicinity of Mille Lacs. The Indians at Mille Lacs lake are not supposed to be there at all by right, but at White Earth, but the government has never seen fit as yet to move them. Now the country is being more thickly settled and the whites are finding many serious objections to having these government charges in their midst. The Indians still maintain their right to stay on the land that was formerly the Mille Lacs lake reservation.

The Indian bureau officials did not learn that the delegation of Indians was in Washington until yesterday, and it is possible the members will be arrested and sent back to the reservation.

Some time ago the Indians requested permission to send a delegation to Washington, but it was refused. They came, however, of their own motion and without authority. The department officials blame Gus Beauhieu for having induced the Indians to go there, and are likely to haul him over the coals for it.

MR. AND MRS. E. L. HOWE AND FAMILY.

It is said to be quite probable that the government timber trespass cases against T. R. Foley, the wealthy Aitkin lumberman, will not come to trial; that the defendant will effect a settlement with the United States government and render a trial unnecessary.

WHIST TOURNAMENT.

Prospects of a Good Representation From Other Cities with Good Teams.

Secretary Fred Farrar, of the local whist club, thinks that there will be a good representation at the whist tournament to be held in this city the latter part of next week. He has not heard definitely from many of the towns and cities, but a few have been heard from.

The local club met last night for practice. It is not known who will compose the local team, but a rather strong aggregation will be put in the field.

of being a floater on the face of the earth? Why not settle down in a happy and comfortable home; have a garden in the back yard? A happy family and a contented mind. I will build you a home after your own ideas, or will sell you any one of a dozen cozy homes I have, already to move into, will accept a small payment down and the balance of purchase price and interest can be paid in monthly payments that will amount to but little, if any more, than the rent you are now paying.

He lives about three miles east of the city. His wife is dead and his daughter keeps house for him. He says that everything seemed harmonious enough until yesterday morning, when Alfred and his sister had a few words over a trivial matter. Later young Alfred left home and has not been seen since.

The father of the boy went as far as Crow Wing and has been trying to find some trace of his boy, but up to 3 o'clock this afternoon nothing was heard from him. The boy's mother is dead. Mr. Blowers will consider it a favor if any one sees the boy if they will notify him or the police.

MUSIC AND DRAMA.

"ALVIN JOSLIN."

The old time favorite, "Alvin Joslin," will be the attraction at the Brainerd Opera House for Saturday, Feb. 22. The play deals with the adventures of an old New England farmer, "Alvin Joslin," during his first visit to New York. He falls into the clutches of bunco-steerers, confidence men and others of his ilk, who are ever on the lookout for the unwary stranger. The old fellow as a result gets into all kinds of scrapes and his efforts to extricate himself furnish an abundance of fun. The plot is an interesting one and there are several strong situations and stirring climaxes, making the play one of intense interest. A quantity of new and special scenery, representing well known localities in New York are carried by the company. The Grand Central Depot, Pier 29 East River, showing the famous Brooklyn Bridge by moonlight, a thieves' den in Baxter street, and a typical Bowery Concert Hall are among the more prominent.

"TAMING OF THE SHREW."

One of the most interesting events of the theatrical year will be the appearance at the Brainerd Opera House on Feb. 24, of Mr. Charles B. Hanford in a grand revival of Shakespeare's "The Taming of the Shrew." The James B. Delcher Amusement Company who are directing the tour promise a complete production with an exceptional cast including Miss Helen Grantly a famous English beauty, Marie Drofnah, Emma Hayner, William J. Shea, Irving Knight, P. A. Nannary, Harold Fiske, Paul Anderson, R. O. Meech, L. W. Browning and John C. Davis.

A LADIES' GOLD WATCH

Given Away Free. Valued at \$25.

The Boston Coffee House, of Boston, Mass., has made arrangements with H. P. Dunn & Co., of this city, to display in their window a beautiful ladies' hunting case gold watch to be given away free.

They also display at the same place a glass jar filled with candy. Every person purchasing one pound of Log Cabin coffee from any store in this city and bringing the wrappers to H. P. Dunn & Co's store will be entitled to one guess for each pound purchased.

The names and the number guessed by each person will be registered in rotation as they come in, and the first person so registered who guesses the correct number, or nearest the correct number of pieces of candy in the jar will be awarded the beautiful gold watch.

Guessing contest closes Friday, March 14th, at 7 o'clock p. m., at which time the jar will be opened and candy counted by a committee of disinterested parties. Ask your grocer for Log Cabin, Mocha and Java coffee. The price of it is 25c per pound. Save the wrappers and bring them to us.

There have been thousands of pounds of this coffee sold in this city, and it is as good as most coffee sold at 35c per pound.

Respectfully,

H. P. DUNN & CO.

An ordinance prohibiting spitting on sidewalks or in public halls or theatres has been adopted by the city council at Fergus Falls, and the authorities are going to make a determined effort to enforce it. The city attorney was also instructed to draw an ordinance prohibiting overhead street signs and another empowering the city to clear the snow off sidewalks and charge up the cost to the abutting property.

Tuesday the Nichols Lumber Co., of Little Falls, received word from their foreman of the Akeley lumber camp, warning them against cashing orders number 5 and 6 as they were forgeries. One order amounting to \$40 had already been paid by a merchant. A. J. Booth, an employee, was suspected and a warrant was issued. He was finally found in the closet of a north bound passenger train and was taken into custody by the sheriff of Hubbard county.

The funeral of Clarence Mitchell, a former Anoka boy, was held from the Workmen hall at Anoka, and was largely attended. Mitchell was killed at Wahpeton the first of the week while putting up ice, a large cake sliding upon him and throwing him into the water, resulting in internal injuries, of which he soon died.

STRUCK BY A BOULDER

FATAL WRECK OF A WOOD TRAIN
REPORTED NEAR LITTLE
ROCK, ARK.

SEVEN DEAD, MANY INJURED

The Heavy Rock, Loosened by the
Rains, Crashes Into the Caboose,
Which is Shivered Into Splinters.
Believed That Others Who Are Un-
accounted for Are Buried Under-
neath the Wreckage.

Little Rock, Ark., Feb. 15.—Seven
men were killed and at least 14 were
seriously injured by a huge boulder
weighing 15 tons crashing into the
caboose of a wood train on the Choctaw,
Oklahoma and Gulf railroad, 20
miles west of Little Rock. The dead
are: Samuel Simon, white; B. L.
Jones, white; Orange Foster, colored;
John Williams, colored; Henry Mc-
Gee, colored, and two unknown.

The work train was heading west,
the engine pushing six cars and a
caboose. It was in charge of Conduc-
tor J. P. Bamble, Engineer Nazor and
Fireman Evans. As the train was
passing under the high bluffs border-
ing the river two miles west of Little
Maumelle the crew saw a heavy
rock rolling down the steep declivity,
having been detached from the hill-
side by the rains. The train was go-
ing slowly, but was almost upon the
rock when it struck the track. Engi-
neer Nazor reversed his engine at
once, but the train struck it with al-
most full force. The caboose was at
the head of the train and was shiv-
ered into splinters. Most of the men
who were killed and injured were in
the caboose. There was a crew of 54
men, white and colored. Just back
of the caboose were three cars of
sand and many of the men were bur-
ied underneath the sand, which was
thrown forward by the terrific im-
pact. Six men are known to have
been killed outright. Three were left
on the scene and three were brought
to Little Rock on the train that was
dispatched to the scene as soon as
the news could be sent to the city.
Fifteen injured were brought to Little
Rock and are now at St. Vincent's
infirmary. One of the most dangerous-
ly injured died on the way to the hos-
pital from the depot.

It is believed there are others
killed or buried under the sand at the
scene of the wreck, as there are sev-
eral missing and as yet unaccounted
for. A crew of workmen are clearing
the wreck and looking for the bodies.
If the engineer had not stopped the
train when he did the entire train
must have been hurled down the em-
bankment and all on board killed.

TWELVE IN AN HOUR.

Judge Gear of Honolulu Disposes of
Murder Cases Rapidly.

San Francisco, Feb. 15.—Mail ad-
vices from Honolulu as to the effect
that the differences between Judge
Gear of the First circuit court and
Attorney General Dole as to the meth-
ods of proceeding against "transition
period prisoners" resulted in a re-
markable court proceeding during
which 12 murder indictments were
disposed of in an hour. Attorney Dole
asked that the cases be continued, as
he insisted they were dependent upon
a decision in the Oaki Hankichi case
at Washington. Gear refused to grant
a continuance.

There were several bitter courtroom
passages between the attorney gen-
eral and the judge. Gear held that as
the indictments had been brought
and the defendants demanded a trial
he could not postpone. Dole refused
to take any part in the cases at all.
The result was that the four men
were brought to trial with no prosecu-
tion and, no evidence being brought
against them, the jury in each case
was instructed to return a verdict of
not guilty. The police promptly re-
arrested the men, however, on the old
convictions.

BABY BURNED TO DEATH.

Three-Year-Old Boy Sets Fire to His
Sister's Clothing.

Hammond, Ind., Feb. 15.—Willie
Nowak, the 3-year-old son of Mr. and
Mrs. John Nowak of this city, delib-
erately set fire to the clothing of his
baby sister and watched her burn to
death.

When the parents arose and the
father, a fireman, had gone to work,
the mother reprimanded the boy for
some trifling fault and locked both
children in the kitchen while she
went to a grocery store. When she
returned and opened the kitchen door
the sickening smell of burning flesh
almost overpowered her. On the floor
lay the 15-months-old girl, writhing
in pain and burned almost beyond re-
cognition. Standing near by was her
little brother, watching the flames, which
had begun to eat into the pine floor
of the room. The boy, who is pre-
cocious and talkative, said at the in-
quest that he had lighted the baby's
clothes with matches.

Americans After Jamaica's Railroad.

Kingston, Jamaica, Feb. 15.—The
Daily Telegraph gives prominence to
a report, circulating in official circles
here, that an American syndicate is
making tentative inquiry with the
view of acquiring control of the Ja-
maica government railroad. The pa-
per says a representative of the syn-
dicate is now here looking over the
line and studying the prospects of the
road.

Exchanged Abusive Epithets.

Vienna, Feb. 15.—The reichsrath
was the scene of renewed disorders
during the day, the Socialists and
anti-Semites exchanging abusive
epithets until for publication. A Jew-
ish reporter was ejected from the
press gallery.

CASTELLANES MUST PAY.

Judge Lacombe Hands Down an Order
for Creditors.

New York, Feb. 15.—Judge Lacombe
in the United States circuit court
handed down an order in the suit of
Eugene Fishof of Paris, France,
against Anna Gould, Countess de Cas-
tellane, and George J. Howard, Ed-
win and Helen Gould, as executors and
trustees of the will of the late
Jay Gould. The judge's order recites
that certain judgments had been ob-
tained in Paris against the countess
and ordered the trustees to pay over
to the parties mentioned in the orders
as creditors out of certain money that
they held as income of the Countess
de Castellane, certain monthly install-
ments until the judgments are satis-
fied or an order of the court is issued
directing otherwise. The first creditors
named in the order are Charles Man-
heim & Co. of Paris, who obtained
judgments Aug. 15, 1901, aggregating
\$27,451. They are to have \$991 month-
ly from November, 1901, to February,
1902, and \$1,960 per month thereafter
until paid in full.

Vincent & Co. of Paris, who ob-
tained a judgment Aug. 16, 1901, for
\$2,156, are to be paid \$360 per month
from September, 1901, until fully paid
or otherwise ordered by the court.

Redmond & Co. of Paris are to be
paid \$5,347 in satisfaction of judgment
obtained Oct. 22, 1901.

The tax office of the French repub-
lic is to be paid \$16,440 for duties due
on judgments obtained in the court of
the first instance of the department
of the Seine.

Body of a Man Found on the Railroad
Near Eckles, Minn.

Bemidji, Minn., Feb. 15.—The body
of a man was found on the railroad
track near Eckles, mutilated beyond
recognition. It was headless and the
flesh had been torn away in strips.
The coroner is confident that the vic-
tim is a man named Spicer, about 45
years old, who was working in a lum-
ber camp west of here. He came to
Bemidji to get a tooth pulled and was
evidently killed while en route home.

ROASTED BY WHEELER

KENTUCKY CONGRESSMAN DE-
LIVERS A MOST SENSA-
TIONAL SPEECH.

"FLUNKYISM" DENOUNCED

Secretary Hay and Lord Pauncefote
Severely Scored—Coronation of
King Edward and Reception to
Prince Henry Also Mentioned.
Messrs. Boutelle and Grosvenor
Take the Gentleman to Task.

Washington, Feb. 15.—The mon-
otony of a private pension day of the
house was enlivened by a very sen-
sational speech by Mr. Wheeler of
Kentucky in denunciation of what he
denominated "flunkeyism" to foreign
countries. He took the recent state-
ments emanating from continental
cabinets regarding the attitude of
Great Britain during the Spanish war
as a text for a wholesale attack upon
the trend of our recent diplomacy.
He severely scored Secretary Hay
and declared that if Lord Pauncefote
had sought, as was alleged, to circum-
vent us during the war of 1898, the
sooner he was shipped across the
seas the better. He also criticised
the president for his reported inten-
tion to send his daughter to the cor-
onation of King Edward and protested
against the official reception of Prince
Henry. His speech aroused the house
to a high pitch of excitement and
elicited from Mr. Boutelle (Ill.) a
spirited defense of Secretary Hay,
whom he eulogized in high terms.
Several other members on the Republi-
can side took a hand and later in
the afternoon Mr. Grosvenor (O.) took
Mr. Wheeler to task for his "inoppor-
tune protest" and rehearsed the his-
tory of the visit of the Prince of
Wales to this country in 1860 and his
reception by President Buchanan.
During the day 125 private pension
bills were passed in 39 minutes.

CAUSE MUST BE SHOWN.

Administration's Policy Regarding Re-
moval of Fourth Class Postmasters.

Washington, Feb. 15.—An official
statement of the new policy that here-
after will govern appointments of
fourth class postmasters has been
made by Postmaster General Payne,
who said:

"The policy of the administration is
not to make removals of fourth class
postmasters without cause. The re-
moval of an officer is a proposition en-
tirely different from the naming of a
successor at the expiration of a post-
master's commission. It is therefore
desired that removals be not made
except for some good reason which
affects the service, or at the request
of a senator or representative endor-
sing the petition for such a change made
by patrons of the office in question.
In some sections of the country, not-
ably in the South, not represented by
Republican representatives in con-
gress, these demands for changes in
fourth class postoffices are made not
for the good of the service, or for any
proper purpose, but to subvert the
interests of rival factions. The ad-
ministration does not believe that the
offices of the government should be
used to subvert the interests of any
party factions in states where there is
hardly a semblance of organization in
the party. To prevent this abuse it is
necessary to discourage these arbi-
trary removals. No order on this sub-
ject, however, has been issued."

Sofia, Bulgaria, Feb. 15.—Bulgaria,
an official newspaper, declares that as
the result of an energetic note from
the United States government Turkey
has permitted the opening of negotia-
tions direct with the brigands for the
liberation of Miss Stone on Turkish
territory.

PREFERS PANAMA ROUTE.

Member of Canal Commission Before
the Senate Committee.

Washington, Feb. 15.—Alfred Noble,
civil engineer and a member of the
Isthmian canal commission, was be-
fore the senate committee on inter-
oceanic canals. Mr. Noble said that
it would be necessary to have absolute
control of the cities of Panama and
Colon in order to control sanitation.
He thought the conditions were favor-
able for yellow fever during most of
the year on the isthmus, though he
was not a sanitary engineer. There
was no yellow fever in Nicaragua so
far as he knew.

Mr. Noble said the technical engi-
neering features of the Bohio dam on
the Panama route were more difficult
than those of the Conchido dam on
the Nicaraguan route. As to harbors
he thought both routes about equal.

In reply to Senator Kittredge Mr.
Noble said he considered the price of
\$40,000,000 asked by the Panama com-
pany for its property as fair and rea-
sonable.

Referring to the difference in the
cost of operating the two proposed
canals, which the witness had said
would amount to about \$1,300,000 an-
nually in favor of the Panama route,
Senator Hanna suggested that this
would be interest on a capitalization
of \$65,000,000, but the witness said
that he had not made any such cal-
culation.

"Taking the whole proposition, do
you consider the Panama proposition
better than the Nicaragua proposi-
tion?" asked Mr. Hanna.
"I think it is," promptly responded
the witness.

MAY ADVANCE RATES.

Recent Big Fires a Heavy Blow to In-
surance Companies.

New York, Feb. 15.—Discussing the
large number of destructive fires that
have occurred since the first of the
year, especially those at Waterbury
and Paterson, Bradstreets says:

"There is, of course, a general feel-
ing that the insurance companies of
the country have suffered a series of
bad blows, which, coming after sev-
eral years of heavy losses, are bound
to be reflected in further withdrawals
of weakened companies, if, indeed, a
general and heavy advance in rates
is not imminent."

The building of fireproof or slow
burning constructions and additional
aids to the controlling and mastering
of future conflagrations is recom-
mended.

Comparing the fire loss with the loss
incurred by business failures, Brad-
streets says that in the month of Jan-
uary the fire loss was greater than the
total liabilities of those who failed in
the United States. In the years 1899
to 1901, inclusive, the gross fire loss
exceeded the gross failure loss by
nearly one-quarter.

IS A LONG DOCUMENT.

President and Cabinet Discuss Deci-
sion in the Schley Case.

Washington, Feb. 15.—At the week-
ly cabinet meeting the president out-
lined his views on the Schley case by
reading the first draft of his decision.
Some modifications were made in it
and in view of the fact that it is sub-
ject to further and possibly important
changes in text, members of the cabi-
net back their indisposition to discuss
it by the assertion that it is unsafe
at this time to predict what its exact
effect will be. It is a long document
and one of its features is the clear
and concise presentation of the facts
regarding the Santiago fight as given
by the president by the captains engaged
in that battle, who recently were sum-
moned to the White House to confer
with him. The decision is couched in
the president's characteristic vigorous
tone.

Plot Against the Sultan Discovered.

Paris, Feb. 15.—The Constantinople
correspondent of The Echo de Paris
says that a plot against the sultan
has been discovered and that two of
the sultan's aides have been arrested,
and it is reported that a number of
courtiers are implicated in the plot.
The object of the conspirators was
either to kill the sultan or imprison
and dethrone him.
